

Chandanasree, Nallapareddygar

Analyst / Software Engineer

SUMMARY

I am detail-oriented, hardworking professional and exceptional programming skills possesses master of computer application degree in computers..Eager To learn new technologies and methodologies. Always willing to innovate The new things which can improve the existing technology

KEY SKILLS

- C
- Java
- Python
- MS Excel
- Power Point Presentation

EXPERIENCE

Analyst / software Engineer

(April 2022 - Present)
CAPGEMINI - Bangalore

Academic Projects

Title : Personalized healthy activity recommendation system for mental health and well-being insights for users

- Mental health and well-being are major public and personal health issues , being a leading cause of disability and disease burden worldwide. Depression is second only to heart disease a cause of disease burden to many people remain untreated.
- This explores the application of recommender techniques to health domain. The key scientific finding that motivates our work is that when patients regularly enact activities that they are rates as pleasant.in this system, mental health applications hold great promise as interventions for addressing a common mental issues.
- -The data collected from two mobile applications that allow clinical and non-clinical participants to manually log details of the personal activities along with mood ratings.

EDUCATION

MCA
(2019-2021)

Sreenivasa Institute of Technology And management studies chittoor

BCA
(2016-2019)

Shri Gnanambica Degree College
Madanapalli
Specialization- Computer Applications

CERTIFICATIONS

Software Engineer certified by NPTEL
